

# ENERGISE

EUROPEAN NETWORK FOR RESEARCH, GOOD PRACTICE  
AND INNOVATION FOR SUSTAINABLE ENERGY

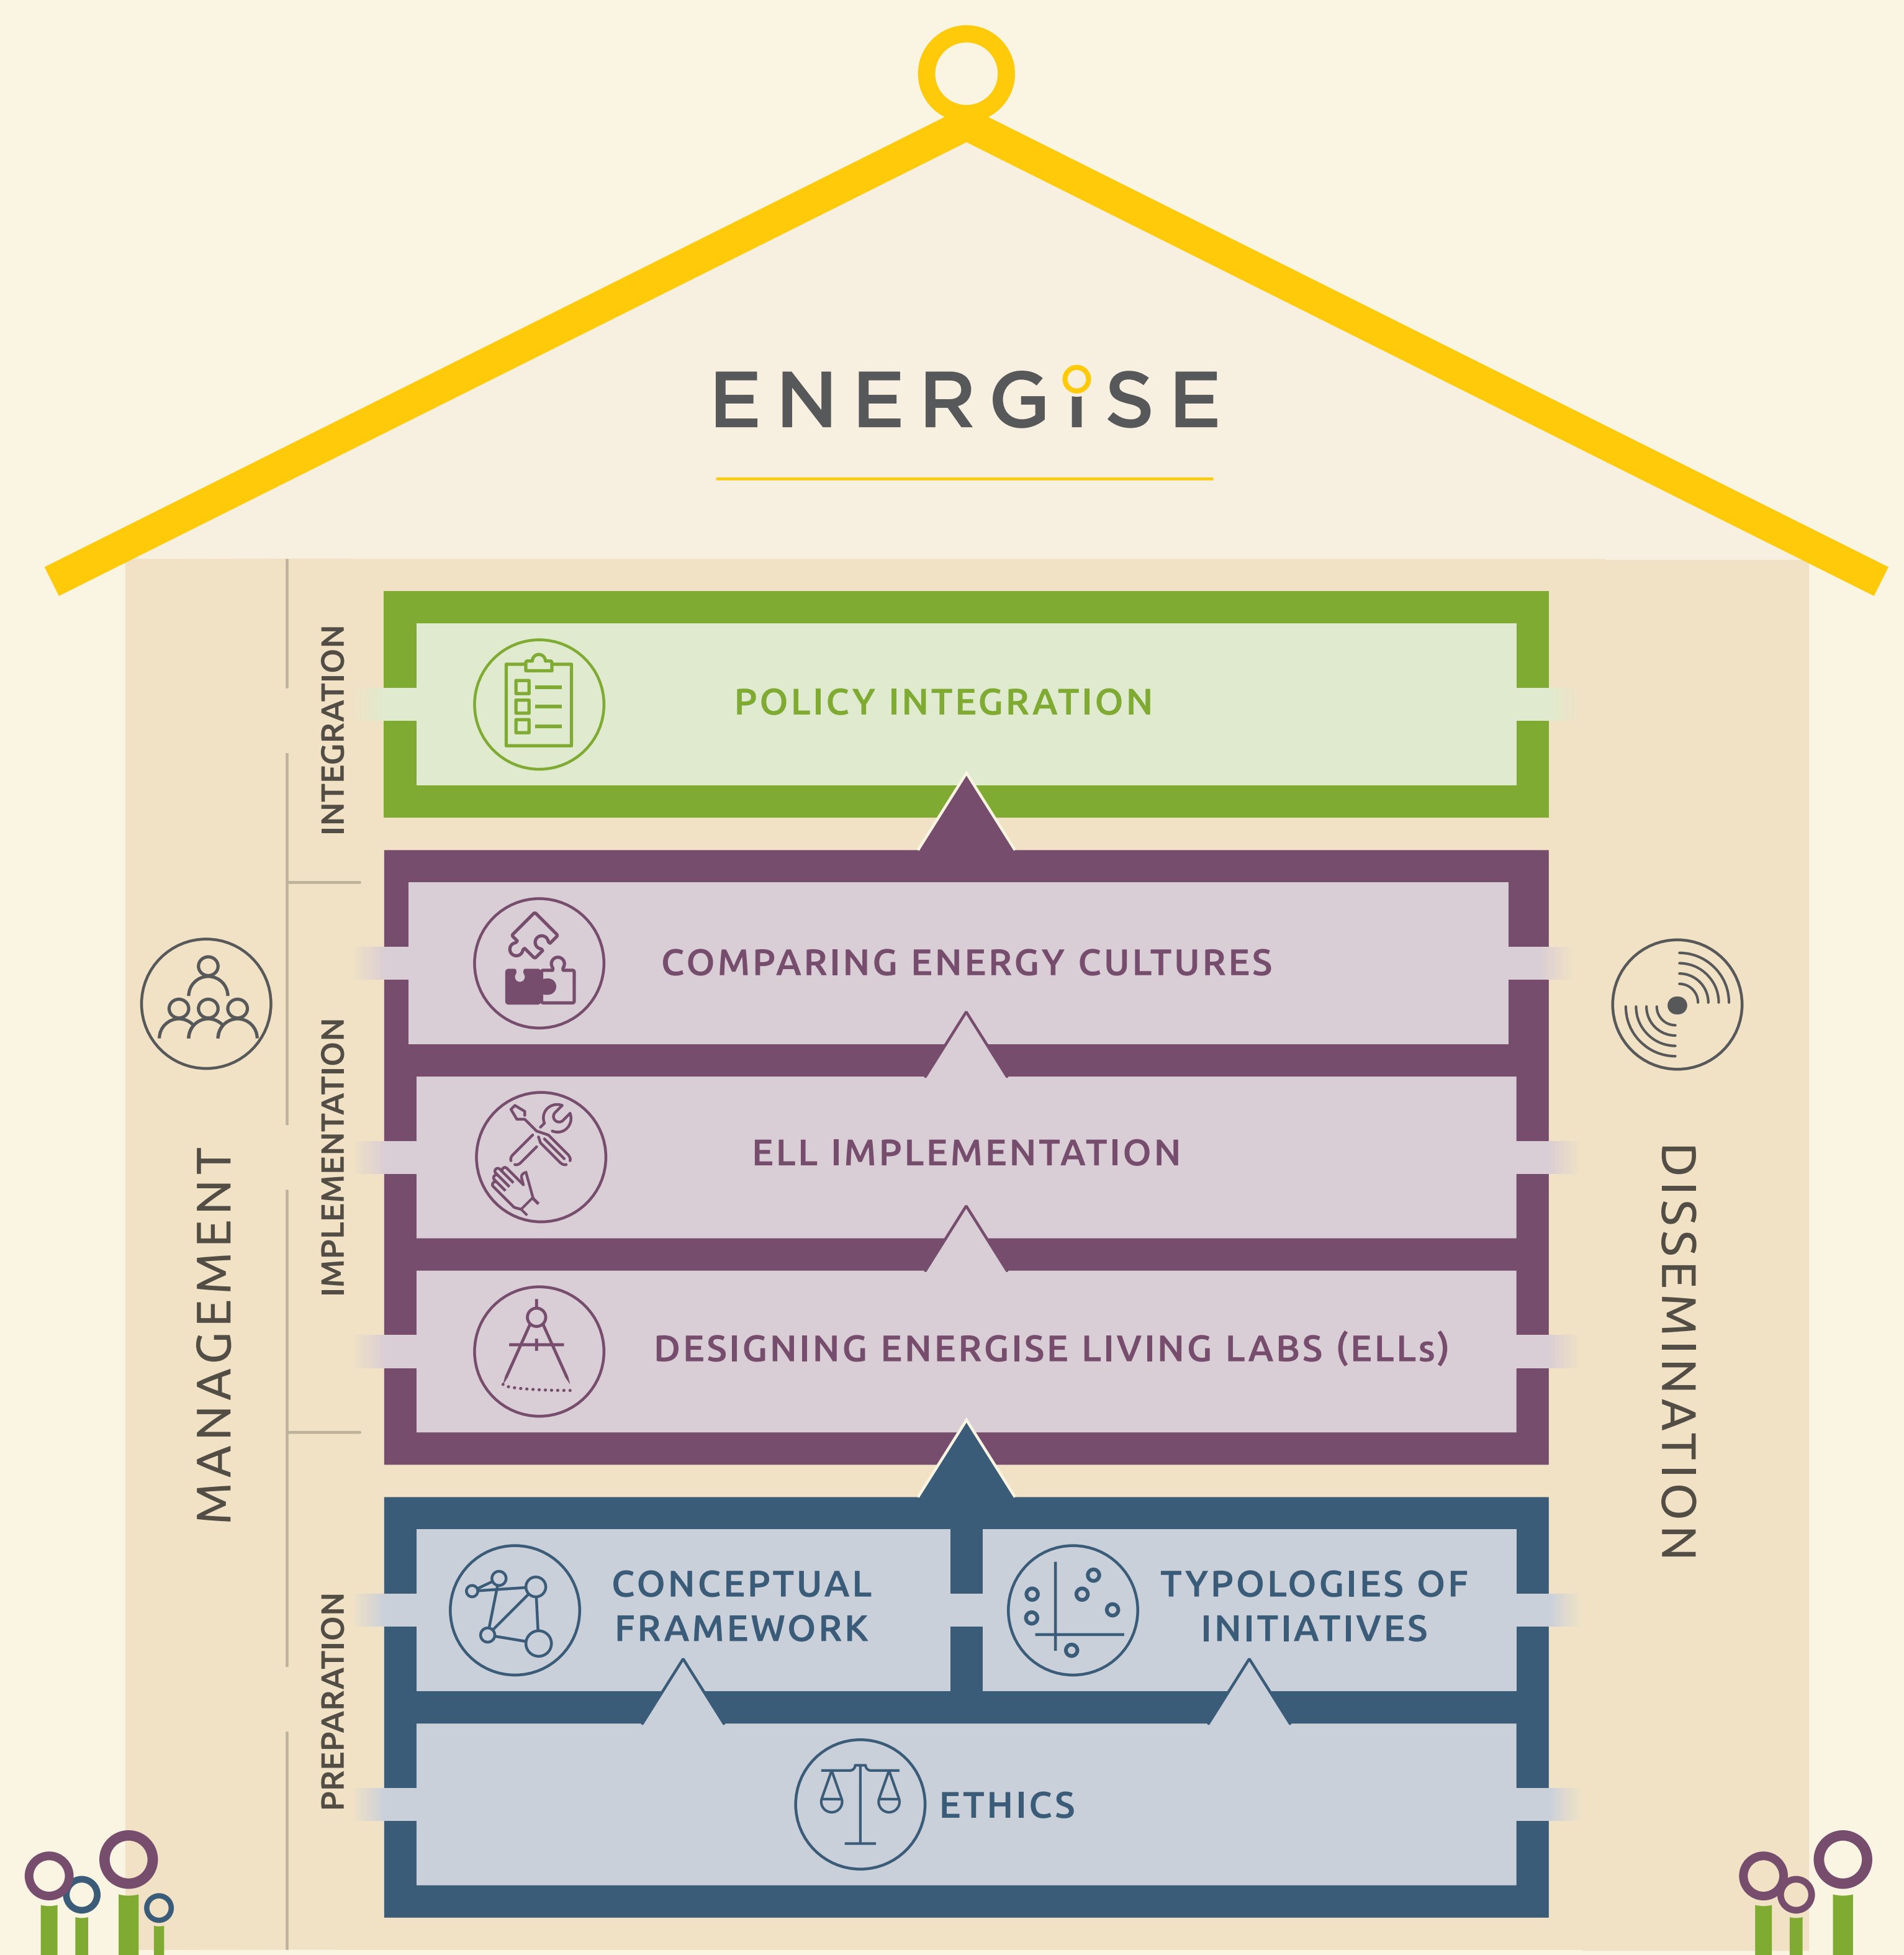

**ENERGISE** is an innovative pan-European research initiative to achieve a greater scientific understanding of the social and cultural influences on energy consumption.

**ENERGISE** develops, tests and assesses options aimed at transforming the quality and quantity of energy use among households and communities across Europe.

## THE ENERGISE PROJECT AIMS TO:

- 1 Develop an innovative framework** to evaluate energy initiatives, taking into account existing social practices and cultures which affect energy consumption.
- 2 Assess and compare the impact** of European energy consumption reduction initiatives.
- 3 Advance the use of Living Lab approaches** for researching and transforming energy cultures.
- 4 Produce new research-led insights** into the role of household routines and changes to those routines towards more sustainable energy.
- 5 Encourage positive interaction** between actors from society, the policy arena and industry.
- 6 Effectively transfer** project outputs towards the implementation of the European Energy Union.

The **ENERGISE** consortium includes ten research partners (universities, research institutes, enterprises and NGOs) from **Bulgaria, Denmark, Finland, Germany, Hungary, Ireland, Slovenia, Switzerland, the Netherlands and the United Kingdom.**
